Re-Post PSB: 288

Overview

The Capital Development Board is cancelling the advertisement of project # 250-045-007, per Administrative Code, 8.2040 (b) (1) (e), the process did not provide for consideration of all factors of significance to the State.

This project was part of a PSB Pilot to test CDB's new e-Builder processes and due to a technical issue within the system there were some qualified vendors that were unable to submit their qualifications submittals into the system. Because this was a system issue CDB has determined that the project should be re-advertised to allow all interested teams the opportunity to submit for this project. The solicitation will be reposted in Professional Services Bulletin 288.
